

## Breeder Hacks – Doggie Disinfecting Bath (and Yard!) – COST EFFECTIVE AND SAFE!

1. After over a year of trying different products gentle and soothing on the coat, that clean and remove microbes, giardia, and fungus and germs alike from your dog AND can be used in your yard, we finally found the one that works for us and for all of our dogs. Plus, they smell fabulous for weeks and who doesn't want that!!
2. For bathing dogs, we add 25% of Chlorhexidine (will call this “The Blue Stuff” to this brand of shampoo.
3. It's very safe to give mother dogs a bath to sooth and prevent infection.
4. We bathe all of our dogs regularly once a month or sooner as needed, and they also receive this mix with their baths. Our dogs have no skin issues 🙏 We also follow up with the Fresh n’ Clean Rinse (The Pink Bottle). All of which can be ordered off of Amazon for a reasonable price. Buy in bulk, it will save you in the long run.
5. ALWAYS remember when washing your dogs, wash from cleanest to their dirtiest places first. I think you all know what I mean!

6. For removing nasty germs and Giardia cysts from your yard, use a hose sprayer and mix 50% of the solution to 50% of water within any hose sprayer and be sure to set your hose setting to mist to lightly saturate all areas of your yard. DO THIS AFER picking up all feces. Do not let dogs back out until it has dried completely. Be sure to do this with no rain in the forecast, if at all possible, to ensure the utmost effectiveness.
